Global Client Advisory

An Overview of HaystackID's Curatorial Approach to Legal Technology Selection, Deployment, Workflow and Data Governance Consulting

HAYST▲CK

Global Client Advisory from HaystackID

Organizations today face escalating costs, unprecedented judicial and regulatory scrutiny, and emerging and systematic security risks related to legal technology and data governance. To support organizations as they address this issues, HaystackID offers expert and customized consulting through our Global Client Advisory Group.

A Curatorial Approach to Legal Technology and Data Governance Consult

HaystacklD's industry experts leverage decades of experience to directly assist organizations with optimizing internal legal technology and planning around data governance needs. Consulting programs feature specialized HaystackID client teams who work with you to map and solve complex issues. We combine innovative thinking, with advanced technology products with certified project manager and legal team to deliver thoughful and proactive plans that help your legal operations teams deliver innovative thinking.

Key areas of expertise include:

- **Managed Services** – Assessment, configuration, remediation, and fully-managed services for corporate behind-the-firewall legal technologies. Supported technology platforms include EnCase® eDiscovery, Relativity®, Nuix®, and Clearwell®.

- **IaaS and Application Support** – Cloud-based application support, including migration and day-to-day management of services, analytics, pilots, and workflow assessments. Current support for offerings includes RelativityOne®, Microsoft® O365, Exterro® Orchestrated E-Discovery, and Veritone® OpenText®.

- **Data Management** – Includes services such as Microsoft O365 migration, data mapping and classification, data lake remediation, PII audit, defensible disposition, information governance initiatives, data sampling, data parsing, and legal hold repository maintenance and management.

- **Advanced Analytics** – HaystackID Analytics experts and data scientists are here to consult on advanced analytics and artificial intelligence such as technology evaluation and selection, POC, case assessment, deployment, defensibility, workflow creation and optimization, support and customized template and script creation (reporting). Analytics is also used to facilitate the review process as it allows teams to focus on the most relevant documents to make informed decisions on case strategy at a very early stage.

- **TAR Workflows** – HaystackID offers comprehensive legal document review services in support of FCPA investigations, privacy, litigation, audits, and compliance matters.

- **Artificial Intelligence** – The AI Lab (virtual sandbox) for emerging AI and data intelligence assists in the discovery process including IBM Watson, Relativity® Analytics and ECA, Brainspace®, NexLP®, Kira Systems®, Neota Logic®, Lexalytics® (Salience Engine), ROSS®, Luminance®, Equivio®, Nuix®, and Veritone®.

- **Audio and Video File Support** – Utilizing the Veritone® technology platform, HaystackID can provide audio and video file identification, processing and advanced audio to text analytics.

- **RelativityOne**® – HaystackID is a Relativity® partner that offers RelativityOne planning, implementation, training, deployment and support.

- **Legal Technology** – HaystackID's legal technology selection includes RFP assistance, process management and deployment, on-prem, cloud or hybrid solutions, SaaS guidance, LaaS, POC assistance and virtual sandbox.

Delivered as a component of HaystackID's Enterprise Managed Solutions, specialized discovery management services for corporations and law firms, our Global Client Advisory consulting provides legal departments and law firms with immediate access to extensive expertise that can help initiate, accelerate, and augment legal technology and data governance initiatives.
