

FACT SHEET

# nControl<sup>®</sup> Discovery Intelligence Program

An Overview of HaystackID's Enterprise Managed Solutions nControl Program

HAYSTACK<sup>™</sup>

## nControl<sup>®</sup> Data Intelligence Program

Today, discovery fees are primarily based on data hosted in high value review platforms. The cost to review information continues to present 70% of the total cost of discovery. Industry statistics point to the truth that fewer than 25% of all matters are using advanced analytics. nControl drives down the cost of linear review by placing emphasis where it belongs; on the reduction of data moving into the manual review funnel. AI and Advanced Analytics applications are applied upon ingestion using intelligent tools, we use best practice to reduce data volume on the front.

### **HaystackID's nControl puts the client in control of the data interrogation process.**

Your team will work towards the same common shared goal – the defensible and efficient reduction of unnecessary data. nControl includes advanced workflow planning, data processing with analytics, early case assessment, hosting and TAR 2.0, TAR 3.0 and CAL workflows, certain user accounts, project management hours, and production services all in one predictable easy to manage fee arrangement. nControl services include:

- Advanced Workflow Planning
- Data Processing
- Analytics and Early Case Assessment
- Data Hosting and TAR, TAR 2.0, and TAR 3.0
- User Accounts
- PM Hours
- Production Services
