ReviewRight Virtual[®]

Secure Remote Review 3.0 Security Enhancements
from HaystackID[™]

HAYSTACK[™]

ReviewRight® is a specialized set of document review services from HaystackID™ designed to help law firms and legal departments quickly and accurately learn from their data to make the right decisions for positive and quality investigation and litigation outcomes. These specialized services address essential eDiscovery needs for complex, data-intensive reviews.

- ReviewRight Virtual® (Secure Remote Review)
- ReviewRight Match® (Reviewer Qualification and Sourcing)
- ReviewRight Protect™ (Data Breach Discovery, PII, PHI and Disclosure Review Services)
- ReviewRight Translate® (Foreign Language Review)
- ReviewRight Manage® (Managed Review)
- ReviewRight Host® (Review Hosting)
- ReviewRight Automate® (Technology-Enhanced Review)

Powerful enough to be used individually and unmatched in capability when integrated, HaystackID's ReviewRight services are the first choice and best choice for document review services by the world's top corporations and leading law firms.

Secure Remote Review 3.0 Security Enhancements

Within this offering portfolio, the core of HaystackID's remote review capability is enabled by the ReviewRight Virtual offering and its secure remote review security enhancements. These security enhancements, many available in basic form since the inception of our remote review services, represent the most advanced review-centric features in the data and legal review market and are the practical representation of HaystackID experience with over 1,200 remote review projects during the last seven years. Leveraging third-generation secure remote review security enhancements (Secure Remote Review 3.0) including the latest in webcam verification technology, HaystackID's remote review security capability ensures you can connect, communicate, and comply with the most stringent of legal and regulatory security and privacy requirements.

Four Layers of Remote Review Security

HaystackID's Secure Remote Review 3.0 enhancements provide a layered approach to review security, ensuring you have access to the most appropriate set of features for your remote review requirements. These security layers include:

- Review Terminal Security Layer: Connectivity and Collaboration-Centric Features
- Review Platform Security Layer: Review Platform-Centric Features
- Review Session Security Layer: Advanced Review Session-Centric Features
- Review Support Security Layer: Review and Review Team Support Features

Developed, designed, and integrated into HaystackID's ReviewRight Virtual offering to allow for the selection and use of any and all of the four security layers to ensure the appropriate level of security for your specific policy, privacy, and project needs, Secure Remote Review 3.0 from HaystackID consists of distinct and synergistic features delivered as part of our silver, gold, and platinum offering packages.

About HaystackID

HaystackID™ is a specialized eDiscovery services firm that helps corporations and law firms securely find, understand, and learn from data when facing complex, data-intensive investigations and litigation. HaystackID mobilizes industry-leading cyber discovery services, enterprise managed solutions, and legal discovery offerings to serve more than 500 of the world's leading corporations and law firms in North America and Europe. Serving nearly half of the Fortune 100, HaystackID is an alternative cyber and legal services provider that combines expertise and technical excellence with a culture of white-glove customer service. In addition to consistently being ranked by Chambers, the company was recently named a worldwide leader in eDiscovery services by IDC MarketScape and a representative vendor in the 2021 Gartner Market Guide for E-Discovery Solutions. For more information about its suite of services, including programs and solutions for unique legal enterprise needs, go to HaystackID.com.
